

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549**

FORM 10-Q

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended September 30, 2017

Commission file number 1-13293

The Hillman Companies, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

23-2874736

(I.R.S. Employer
Identification No.)

**10590 Hamilton Avenue
Cincinnati, Ohio**

(Address of principal executive offices)

45231

(Zip Code)

Registrant's telephone number, including area code: (513) 851-4900

Securities registered pursuant to Section 12(b) of the Act:

Title of Class	Name of Each Exchange on Which Registered
11.6% Junior Subordinated Debentures	None
Preferred Securities Guaranty	None

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input checked="" type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company	<input type="checkbox"/>
Emerging growth company	<input type="checkbox"/>		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. YES NO

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES NO

On November 13, 2017, 5,000 shares of the Registrant's common stock were issued and outstanding and 4,217,724 Trust Preferred Securities were issued and outstanding by the Hillman Group Capital Trust. The Trust Preferred Securities trade on the NYSE Amex under symbol HLM.Pr.

THE HILLMAN COMPANIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(dollars in thousands)

1. Basis of Presentation:

The accompanying unaudited financial statements include the condensed consolidated accounts of The Hillman Companies, Inc. ("Hillman Companies") and its wholly-owned subsidiaries (collectively "Hillman" or the "Company"). All significant intercompany balances and transactions have been eliminated.

The accompanying unaudited condensed consolidated financial statements present information in accordance with accounting principles generally accepted in the United States for interim financial information and the instructions to Form 10-Q and applicable rules of Regulation S-X. Accordingly, they do not include all information or footnotes required by U.S. generally accepted accounting principles for complete financial statements. Management believes that the unaudited condensed consolidated financial statements include all adjustments (consisting only of normal recurring accruals and adjustments) necessary for a fair presentation. Operating results for the thirty-nine weeks ended September 30, 2017 do not necessarily indicate the results that may be expected for the full year. For further information, refer to the consolidated financial statements and notes thereto included in the Company's annual report filed on Form 10-K for the year ended December 31, 2016.

For fiscal year 2017, the Company has changed from a calendar year ending on December 31 to a 52-53 week fiscal year ending on the last Saturday in December, effective beginning with the first quarter of 2017. In a 52 week fiscal year, each of the Company's quarterly periods will comprise 13 weeks. The additional week in a 53 week fiscal year is added to the fourth quarter, making such quarter consist of 14 weeks. The Company's first 53 week fiscal year will occur in fiscal year 2022. The Company made the fiscal year change on a prospective basis and has not adjusted operating results for prior periods. The change does not materially impact the comparability of quarters or year ended 2017 to the quarters or year ended 2016. The adoption of a 52-53 week year was not deemed a change in fiscal year for purposes of reporting subject to Rule 13a-10 or 15d-10; hence, no transition reports are required.

In 2017, the Company completed the integration of its All Points subsidiary into the rest of its United States business. After this transition, discrete financial information for the All Points business is no longer regularly reviewed by the Chief Operating Decision Maker. Accordingly, to align the operating segments with the current way management reviews information to make operating decisions, assess performance, and allocate resources, the results of the Company's All Points business are now reported in the United States operating segment. Additional information on the Company's reportable segments is presented at the "Segment Information" note of the Notes to the Condensed Consolidated Financial Statements.

2. Summary of Significant Accounting Policies:

The significant accounting policies should be read in conjunction with the significant accounting policies included in the Form 10-K for the year ended December 31, 2016.

Use of Estimates in the Preparation of Financial Statements:

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses for the reporting periods. Actual results may differ from these estimates.

Reclassifications:

Certain amounts in the prior year financial statements, primarily related to the reclassification of segment information and goodwill reporting units, were reclassified to conform to the current year's presentation. These reclassifications had no impact on the prior periods' net income (loss), cash flows, or stockholders' equity.

Stock Based Compensation:

The Company has a stock-based employee compensation plan pursuant to which options, stock appreciation rights, restricted stock, and other stock-based awards may be granted. The Company uses a Black-Scholes option pricing model to determine the fair value of stock options on the dates of grant. Stock-based compensation cost is estimated at the grant date based on the fair value of the award and is recognized as expense over the requisite vesting period or performance period of the award on a straight-line basis. The stock-based compensation expense is recorded in general and administrative expenses.

THE HILLMAN COMPANIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(dollars in thousands)

In the thirty-nine weeks ended September 30, 2017, the Company modified the vesting period of the outstanding awards, reducing the vesting period to four years from five years. The modification of the vesting term resulted in \$687 of additional expense for the thirty-nine weeks ended September 30, 2017.

3. Recent Accounting Pronouncements:

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, ("ASU 2014-09") which supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. This ASU is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU outlines a five-step model and related application guidance, which replaces most existing revenue recognition guidance. In August 2015, the FASB issued ASU 2015-14 which deferred the effective date by one year making the guidance effective for us in the fiscal year ending December 31, 2018, and for interim periods within that year. The amendments can be applied retrospectively to each prior reporting period or retrospectively with the cumulative effect of initially applying this standard recognized at the date of initial application. Early adoption is permitted as of the original effective date. In March 2016, the FASB issued ASU No. 2016-08, *Revenue from Contracts with Customers*. This guidance amends the principal-versus-agent implementation guidance and illustrations in ASU 2014-09. This ASU clarifies that an entity should evaluate whether it is the principal or the agent for each specified good or service promised in a contract with a customer. Therefore, for contracts involving more than one specified good or service, the entity may be the principal for one or more specified goods or services and the agent for others. This ASU has the same effective date as the new revenue standard, ASU 2014-09, and entities are required to adopt this ASU by using the same transition method used to adopt the new revenue standard. In April 2016, the FASB issued ASU No. 2016-10, *Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing*. This ASU clarifies the implementation guidance on identifying performance obligations and licensing on the previously issued ASU 2014-09. In May 2016, the FASB issued ASU No. 2016-11, *Revenue Recognition (Topic 605) and Derivatives and Hedging (Topic 815): Rescission of SEC Guidance Because of Accounting Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements at the March 3, 2016 EITF Meeting*. ASU No. 2016-11 rescinds several SEC Staff Announcements that are codified in Topic 605, including, among other items, guidance relating to accounting for shipping and handling fees and freight services. In May 2016, the FASB also issued ASU 2016-12, which provided narrow scope improvements and practical expedients related to ASU 2014-09. The improvements address completed contracts and contract modifications at transition, noncash consideration, the presentation of sales taxes and other taxes collected from customers, and assessment of collectability when determining whether a transaction represents a valid contract. Additionally, on December 21, 2016, the FASB issued ASU No. 2016-20, *Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers*, which provides disclosure relief, and clarifies the scope and application of the new revenue standard and related cost guidance. ASU No. 2016-10, ASU No. 2016-11, ASU No. 2016-12, and ASU No. 2016-20 are effective for the fiscal year ending December 31, 2018, and for interim periods within that year. Early adoption is permitted only as of annual reporting periods beginning after December 15, 2016, including interim periods within that year. ASU No. 2016-10, ASU No. 2016-11, ASU No. 2016-12, and ASU No. 2016-20 can be adopted either retrospectively to each prior reporting period presented or as a cumulative-effect adjustment as of the date of adoption. While the Company is continuing to assess all potential impacts these standards may have on its financial statements, it believes that the adoption will not have a significant impact on its revenue streams. The Company has not yet determined its method of adoption.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*. The amendments in this update require lessees, among other things, to recognize lease assets and lease liabilities on the balance sheet for those leases classified as operating leases under previous authoritative guidance. This update also introduces new disclosure requirements for leasing arrangements. The new guidance will be effective for public business entities for annual periods beginning after December 15, 2018, and interim periods therein. Early adoption will be permitted for all entities. The new standard is required to be applied with a modified retrospective approach to each prior reporting period presented with various optional practical expedients. The Company is currently evaluating the impact of implementing this guidance on its Condensed Consolidated Financial Statements.

In June 2016, the FASB issued ASU No. 2016-13, *Financial Instruments – Credit Losses*. The ASU sets forth a "current expected credit loss" (CECL) model which requires the Company to measure all expected credit losses for financial instruments held at the reporting date based on historical experience, current conditions, and reasonable supportable forecasts. This replaces the existing incurred loss model and is applicable to the measurement of credit losses on financial assets measured at amortized cost and applies to some off-balance sheet credit exposures. This ASU is effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. The Company is currently assessing the impact of the adoption of this ASU on its Condensed Consolidated Financial Statements.

THE HILLMAN COMPANIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(dollars in thousands)

In August 2016, the FASB issued ASU No. 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*. The ASU amends the guidance in ASC 230, Statement of Cash Flows, and clarifies how entities should classify certain cash receipts and cash payments on the statement of cash flows with the objective of reducing the existing diversity in practice related to eight specific cash flow issues. The amendments in this update are effective for annual periods beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted. The Company does not expect the adoption this ASU to have a material impact on its Condensed Consolidated Financial Statements.

In October 2016, the FASB issued ASU 2016-16, *Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory*. The new standard eliminates the exception to the principle in ASC 740 for all intra-entity sales of assets other than inventory to be deferred until the transferred asset is sold to a third party or otherwise recovered through use. This ASU is effective for financial statements issued for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company does not expect the adoption to have a material impact on its Condensed Consolidated Financial Statements.

In January 2017, the FASB issued ASU 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business*. The new standard provides guidance to assist entities in evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The updated guidance requires a prospective adoption. Early adoption is permitted. The ASU is effective for fiscal years beginning after December 15, 2017. The Company does not expect the provisions of this ASU to have a material impact on its Condensed Consolidated Financial Statements.

In January 2017, the FASB issued ASU 2017-04, *Intangibles – Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment*. The new standard eliminates Step 2 from the goodwill impairment test and instead requires an entity to perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. The entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value, not to exceed the total amount of goodwill allocated to the reporting unit. The updated guidance requires a prospective adoption. Early adoption is permitted. The ASU is effective for fiscal years and interim periods within those years beginning after December 15, 2019. The Company is in the process of evaluating the effects of the provisions of this ASU on its Condensed Consolidated Financial Statements.

In May 2017, the FASB issued ASU 2017-09, *Compensation-Stock Compensation (Topic 718): Scope of Modification Accounting*. The new standard provides clarification on when modification accounting should be used for changes to the terms or conditions of a share-based payment award. This ASU does not change the accounting for modifications but clarifies that modification accounting guidance should only be applied if there is a change to the value, vesting conditions, or award classification and would not be required if the changes are considered non-substantive. This ASU is effective prospectively for annual periods beginning after December 15, 2017, with early adoption permitted. The Company does not expect the provisions of this ASU to have a material impact on its Condensed Consolidated Financial Statements.

In August 2017, the FASB issued ASU 2017-12, *Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities*, which amends and simplifies existing guidance in order to allow companies to more accurately present the economic effects of risk management activities in the financial statements. The standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those years. Early adoption is permitted. The Company is currently evaluating the impact of this ASU on its Condensed Consolidated Financial Statements.

4. Goodwill and Other Intangible Assets:

Goodwill amounts by reporting unit are summarized as follows:

THE HILLMAN COMPANIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(dollars in thousands)

	Goodwill at December 31, 2016	Acquisitions	Dispositions	Other ⁽¹⁾	Goodwill at September 30, 2017
United States	\$ 583,780	\$ —	\$ —	\$ —	\$ 583,780
Canada	28,377	—	—	2,153	30,530
Mexico	3,525	—	—	475	4,000
Total	\$ 615,682	\$ —	\$ —	\$ 2,628	\$ 618,310

(1) These amounts relate to adjustments resulting from fluctuations in foreign currency exchange rates.

Other intangibles, net, as of September 30, 2017 and December 31, 2016 consist of the following:

	Estimated Useful Life (Years)	September 30, 2017	December 31, 2016
Customer relationships	20	\$ 690,405	\$ 687,642
Trademarks - All Others	Indefinite	85,846	85,294
Trademarks - TagWorks	5	300	300
KeyWorks license	7	4,456	4,438
Patents	7-12	32,844	32,796
Intangible assets, gross		813,851	810,470
Less: Accumulated amortization		123,524	94,658
Other intangibles, net		\$ 690,327	\$ 715,812

The amortization expense for amortizable assets including the adjustments resulting from fluctuations in foreign currency exchange rates was \$9,500 and \$28,442 for the thirteen and thirty-nine weeks ended September 30, 2017, respectively, and \$9,481 and \$28,435 for the three and nine months ended September 30, 2016, respectively.

The Company tests goodwill and indefinite-lived intangible assets for impairment annually. Impairment is also tested when events or changes in circumstances indicate that the carrying values of the assets may be greater than their fair values. During the thirteen and thirty-nine weeks ended September 30, 2017 and three and nine months ended September 30, 2016, the Company did not adjust goodwill or intangible assets to their fair values as a result of any impairment analyses.

5. Commitments and Contingencies:

The Company self-insures its product liability, automotive, workers' compensation, and general liability losses up to \$250 per occurrence. Catastrophic coverage has been purchased from third party insurers for occurrences in excess of \$250 up to \$40,000. Two risk areas involving significant accounting estimates are workers' compensation and automotive liability. Actuarial valuations performed by the Company's outside risk insurance expert were used by the Company's management to form the basis for workers' compensation and automotive liability loss reserves. The actuary contemplated the Company's specific loss history, actual claims reported, and industry trends among statistical and other factors to estimate the range of reserves required. Risk insurance reserves are comprised of specific reserves for individual claims and additional amounts expected for development of these claims, as well as for incurred but not yet reported claims. The Company believes the liability of approximately \$2,311 recorded for such risks is adequate as of September 30, 2017.

As of September 30, 2017, the Company has provided certain vendors and insurers letters of credit aggregating \$6,359 related to our product purchases and insurance coverage for product liability, workers' compensation, and general liability.

The Company self-insures group health claims up to an annual stop loss limit of \$250 per participant. Historical group insurance loss experience forms the basis for the recognition of group health insurance reserves. Provisions for losses expected under these programs are recorded based on an analysis of historical insurance claims data and certain actuarial assumptions. The Company believes the liability of approximately \$1,634 recorded for such risks is adequate as of September 30, 2017.

The Company imports large quantities of fastener products which are subject to customs requirements and to tariffs and quotas set by governments through mutual agreements and bilateral actions. The Company could be subject to penalties and interest if

THE HILLMAN COMPANIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(dollars in thousands)

it or its suppliers fail to comply with customs regulations or similar laws. The U.S. Department of Commerce has selected certain Chinese vendors of nail products for administrative review of compliance with anti-dumping duty and countervailing duty laws. The Company sourced product from selected vendors during the 2014 through 2016 periods currently open for review, and it is at least reasonably possible that the Company may be subject to additional duties pending the results of the review. The Company accrues for the duty expense once it is determined to be probable and the amount can be reasonably estimated. In the thirteen and thirty-nine weeks ended September 30, 2017, the Company recorded expense of \$4,128 and \$6,274, respectively, for anti-dumping duties, which is included in Cost of Goods Sold on the Condensed Consolidated Statement of Comprehensive Income (Loss).

On October 1, 2013, The Hillman Group, Inc. ("Hillman Group") filed a complaint against Minute Key Inc., a manufacturer of fully-automatic, self-service key duplication kiosks, in the United States District Court for the Southern District of Ohio (Western Division), seeking a declaratory judgment of non-infringement and invalidity of a U.S. patent issued to Minute Key Inc. on September 10, 2013. Hillman Group's filing against Minute Key Inc. was in response to a letter dated September 10, 2013 in which Minute Key Inc. alleged that Hillman Group's FastKey™ product infringes the newly-issued patent.

On October 23, 2013, Minute Key Inc. filed an answer and counterclaim against the Hillman Group alleging patent infringement. Minute Key Inc. also requested that the court dismiss the Hillman Group's complaint, enter judgment against the Hillman Group that the Company is willfully and deliberately infringing the patent, grant a permanent injunction, and award unspecified monetary damages to Minute Key Inc.

Minute Key Inc. later filed two motions on March 17, 2014 seeking to voluntarily withdraw its counterclaim alleging infringement by Hillman Group and also to dismiss Hillman Group's complaint for non-infringement and invalidity. Shortly after an April 23, 2014 court-ordered mediation, Minute Key Inc. provided Hillman Group with a covenant promising not to sue for infringement of two of its patents against any existing Hillman Group product, including the FastKey™ and Key Express™ products.

Hillman Group filed a motion on May 9, 2014 seeking to add additional claims to the case against Minute Key Inc. under Federal and Ohio state unfair competition statutes. These claims relate to Minute Key Inc.'s business conduct during competition with Hillman Group over a mutual client.

In an August 15, 2014 order, the court granted Minute Key Inc.'s March 17, 2014 motions to dismiss the claims relating to patent infringement and also granted Hillman Group's May 9, 2014 motion to add its unfair competition claims.

Hillman Group formally amended its complaint to add the unfair competition claims on September 4, 2014, and Minute Key Inc. answered on September 29, 2014 without filing any counterclaims. Minute Key Inc. filed a motion on October 1, 2014 to move the case from Cincinnati to either the District of Colorado or the Western District of Arkansas. The court denied that motion on February 3, 2015.

It is not yet possible to assess the impact, if any, that the lawsuit will have on the Company. As a result of the Minute Key Inc. covenant not to sue, however, the Company's FastKey™ and Key Express™ products no longer face any threat of patent infringement liability from two of Minute Key Inc.'s patents. The scope of the lawsuit changed from a bilateral dispute over patent infringement to a lawsuit solely about Minute Key Inc.'s business conduct. Minute Key Inc. filed a motion for summary judgment on February 8, 2016. The court denied that motion on July 8, 2016. Following the denial of Minute Key Inc.'s summary judgment motion, a jury trial was held between August 24, 2016 and September 6, 2016. The jury returned a verdict in Hillman Group's favor on September 6, 2016 finding that Minute Key Inc.'s actions violated the Federal Lanham Act and the Ohio Deceptive Trade Practices Act. Following this verdict against Minute Key Inc., Hillman Group has filed post-trial motions for recovery of its costs, attorney fees, pre-and post-judgment interest, and an injunction. Minute Key Inc. filed a post-trial motion to set aside the jury verdict. All post-trial motions are pending before the court.

In addition, legal proceedings are pending which are either in the ordinary course of business or incidental to the Company's business. Those legal proceedings incidental to the business of the Company are generally not covered by insurance or other indemnity. In the opinion of the Company's management, the ultimate resolution of the pending litigation matters will not have a material adverse effect on the consolidated financial position, operations, or cash flows of the Company.

6. Related Party Transactions

THE HILLMAN COMPANIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(dollars in thousands)

The Company has recorded aggregate management fee charges and expenses from CCMP Capital Advisors, LLC (“CCMP”), Oak Hill Capital Partners III, L.P., Oak Hill Capital Management Partners III, L.P. and OHCP III HC RO, L.P. (collectively, “Oak Hill Funds”) of \$127 and \$390 for the thirteen and thirty-nine weeks ended September 30, 2017, respectively, and \$148 and \$420 for the three and nine months ended September 30, 2016, respectively.

Gregory Mann and Gabrielle Mann are employed by Hillman. The Company leases an industrial warehouse and office facility from companies under the control of the Manns. The Company has recorded rental expense for the lease of this facility on an arm’s length basis. The rental expense for the lease of this facility was \$88 and \$265 for the thirteen and thirty-nine weeks ended September 30, 2017, respectively, and \$82 and \$246 for the three and nine months ended September 30, 2016, respectively.

The Hillman Group Canada ULC subsidiary of Hillman entered into three leases for five properties containing an industrial warehouse, manufacturing plant, and office facilities on February 19, 2013. The owners of the properties under one lease are relatives of Richard Paulin, who was employed by The Hillman Group Canada ULC until his retirement effective April 30, 2017, and the owner of the properties under the other two leases is a company which is owned by Richard Paulin and certain of his relatives. The Company has recorded rental expense for the three leases on an arm's length basis. The rental expense for the three leases was \$164 and \$473 for the thirteen and thirty-nine weeks ended September 30, 2017, respectively, and \$158 and \$468 for the three and nine months ended September 30, 2016, respectively.

7. Income Taxes:

Accounting Standards Codification 740 (“ASC 740”) requires companies to apply their estimated annual effective tax rate on a year-to-date basis in each interim period. These rates are derived, in part, from expected annual pre-tax income or loss. In the thirteen and thirty-nine weeks ended September 30, 2017, the Company applied an estimated annual effective tax rate to the interim period pre-tax income (loss) to calculate the income tax expense. Under ASC 740, companies should not apply the estimated annual effective tax rate to interim financial results if the estimated annual effective tax rate is not reliably predictable. In this situation, the interim tax rate should be based on the actual year-to-date results. For the three and nine months ended September 30, 2016, reliable projections of the Company’s annual effective tax rate were difficult to determine, producing significant variations in the customary relationship between income tax expense and pre-tax book income. As such, the Company recorded income taxes for the period based on actual year-to-date results.

For the thirteen and thirty-nine weeks ended September 30, 2017, the effective income tax rates were 28.9% and 41.2%. The Company recorded a tax benefit for the thirteen and thirty-nine weeks ended September 30, 2017 of \$538 and \$4,759, respectively. The effective income tax rate differed from the federal statutory tax rate in the thirteen and thirty-nine weeks ended September 30, 2017 primarily due to the decrease in the valuation allowance attributable to a foreign subsidiary and certain non-deductible expenses. Additionally, the effective income tax rate differed from the federal statutory tax rate in the thirteen and thirty-nine weeks ended September 30, 2017 due in part to a tax benefit recorded from the reconciliation of a prior year’s tax return to the amount reported for tax provision purposes. The remaining differences between the effective income tax rate and the federal statutory rate in the thirteen and thirty-nine weeks ended September 30, 2017 were due to state and foreign income taxes.

The effective income tax rates were 1,140.5% and 27.4% for three and nine months ended September 30, 2016, respectively. The Company recorded a tax provision / (benefit) for the three and nine months ended September 30, 2016 of \$479 and \$(2,471), respectively. The effective income tax rate differed from the federal statutory tax rate in the three months ended September 30, 2016 primarily due to certain non-deductible expenses for tax in relationship to the income reported for the third quarter. In addition, due to the cumulative loss recognized in previous years and in the current year in Australia, any tax benefit recorded is offset by the valuation allowance recorded against the subsidiary's loss. While the tax benefit is offset by the valuation allowance, the loss decreases total income utilized in calculating the effective rate during the three months ended September 30, 2016. The effective income tax rate differed from the federal statutory tax rate in the three and nine months ended September 30, 2016 due in part to a tax benefit recorded in the current period from the reconciliation of a prior year’s tax return to the amount reported for tax provision purposes. The effective income tax rate differed from the federal statutory rate in the three and nine months ended September 30, 2016 also due in part to a valuation reserve recorded to offset the deferred tax assets of a foreign subsidiary. The remaining differences between the federal statutory rate and the effective tax rate in the three and nine months ended September 30, 2016 were primarily due to state and foreign income taxes.

8. Long Term Debt:

The following table summarizes the Company's debt:

	September 30, 2017	December 31, 2016
Revolving loans	\$ —	\$ —
Senior term loan, due 2020	532,125	536,250
6.375% Senior Notes, due 2022	330,000	330,000
11.6% Junior Subordinated Debentures - Preferred	105,443	105,443
Junior Subordinated Debentures - Common	3,261	3,261
Capital leases & other obligations	490	322
	<u>971,319</u>	<u>975,276</u>
(Add) unamortized premium on 11.6% Junior Subordinated Debentures	19,072	19,936
(Subtract) current portion of long term debt and capital leases	(5,726)	(5,643)
(Subtract) deferred financing fees	(13,613)	(16,114)
Total long term debt, net	<u>\$ 971,052</u>	<u>\$ 973,455</u>

As of September 30, 2017, there was \$532,125 outstanding under the Company's term loan. As of September 30, 2017, the Company had \$0 outstanding under its revolving credit facility along with \$6,359 of letters of credit. The Company has approximately \$63,641 of available borrowings under the revolving credit facility as a source of liquidity.

Additional information with respect to the fair value of the Company's fixed rate senior notes and junior subordinated debentures is included in Note 10 - Fair Value Measurements.

9. Derivatives and Hedging:

The Company uses derivative financial instruments to manage our exposures to (1) interest rate fluctuations on our floating rate senior debt and (2) fluctuations in foreign currency exchange rates. The Company measures those instruments at fair value and recognizes changes in the fair value of derivatives in earnings in the period of change, unless the derivative qualifies as an effective hedge that offsets certain exposures.

Interest Rate Swap Agreements

On September 3, 2014, the Company entered into two forward Interest Rate Swap Agreements (the "2014 Swaps") with three-year terms for notional amounts of \$90,000 and \$40,000. The forward start date of the 2014 Swaps was October 1, 2015 and the termination date is September 30, 2018. The 2014 Swaps fix the interest rate at 2.2% plus the applicable interest rate margin of 3.5% for an effective rate of 5.7%. The interest rate on the term loan was 4.8% at September 30, 2017.

The total fair value of the interest rate swaps was \$874 as of September 30, 2017 and was reported on the condensed consolidated balance sheet in other current liabilities with an increase in other income recorded in the statement of comprehensive loss for the favorable change of \$984 in fair value since December 31, 2016.

The total fair value of the interest rate swaps was \$1,858 as of December 31, 2016 and was reported on the condensed consolidated balance sheet in other non-current liabilities.

The Company's interest rate swap agreements did not qualify for hedge accounting treatment because they did not meet the provisions specified in ASC 815, Derivatives and Hedging ("ASC 815"). Accordingly, the gain or loss on these derivatives was recognized in current earnings.

Foreign Currency Forward Contracts

[Table of Contents](#)

THE HILLMAN COMPANIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(dollars in thousands)

During 2015, 2016, and 2017, the Company entered into multiple foreign currency forward contracts. The table below summarizes the maturity dates and the fixed exchange rates of the contracts:

	<u>2015 FX Contracts</u>	<u>2016 FX Contracts</u>	<u>2017 FX Contracts</u>
Maturity date range:			
Minimum	February 2015	April 2016	October 2017
Maximum	December 2016	July 2017	April 2018
Fixed exchange rate range:			
Minimum	1.1384	1.2536	1.3002
Maximum	1.3831	1.3458	1.3518

The purpose of the Company's foreign currency forward contracts is to manage the Company's exposure to fluctuations in the exchange rate of the Canadian dollar.

The total notional amount of contracts outstanding was C\$15,533 and C\$29,887 as of September 30, 2017 and December 31, 2016, respectively. The total fair value of the outstanding foreign currency forward contracts was \$(714) and \$616 as of September 30, 2017 and December 31, 2016, respectively, and was reported on the condensed consolidated balance sheets in other current liabilities and other current assets, respectively. An increase in other expense of \$908, including contracts settled during the thirty-nine weeks ended September 30, 2017, was recorded in the statement of comprehensive loss for the unfavorable change in fair value from December 31, 2016.

The Company's foreign currency forward contracts did not qualify for hedge accounting treatment because they did not meet the provisions specified in ASC 815. Accordingly, the gain or loss on these derivatives was recognized in current earnings.

The Company does not enter into derivative transactions for speculative purposes and, therefore, holds no derivative instruments for trading purposes.

Additional information with respect to the fair value of derivative instruments is included in Note 10 - Fair Value Measurements.

10. Fair Value Measurements:

The Company uses the accounting guidance that applies to all assets and liabilities that are being measured and reported on a fair value basis. The guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The guidance also establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Assets and liabilities carried at fair value are classified and disclosed in one of the following three categories:

- Level 1: Quoted market prices in active markets for identical assets or liabilities.
- Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.
- Level 3: Unobservable inputs reflecting the reporting entity's own assumptions.

The following tables set forth the Company's financial assets and liabilities that were measured at fair value on a recurring basis during the period, by level, within the fair value hierarchy:

THE HILLMAN COMPANIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(dollars in thousands)

As of September 30, 2017				
	Level 1	Level 2	Level 3	Total
Trading securities	\$ 2,093	\$ —	\$ —	\$ 2,093
Interest rate swaps	—	(874)	—	(874)
Foreign exchange forward contracts	—	(714)	—	(714)
As of December 31, 2016				
	Level 1	Level 2	Level 3	Total
Trading securities	\$ 1,787	\$ —	\$ —	\$ 1,787
Interest rate swaps	—	(1,858)	—	(1,858)
Foreign exchange forward contracts	—	616	—	616

Trading securities are valued using quoted prices on an active exchange. Trading securities represent assets held in a Rabbi Trust to fund deferred compensation liabilities and are included as other assets on the accompanying condensed consolidated balance sheets.

The Company utilizes interest rate swap contracts to manage our targeted mix of fixed and floating rate debt, and these contracts are valued using observable benchmark rates at commonly quoted intervals for the full term of the swap contracts. As of September 30, 2017 and December 31, 2016, the interest rate swaps were included in other current liabilities and non-current liabilities on the accompanying condensed consolidated balance sheets, respectively.

The Company utilizes foreign exchange forward contracts to manage our exposure to currency fluctuations in the Canadian dollar versus the U.S. dollar. The forward contracts were valued using observable benchmark rates at commonly quoted intervals during the term of the forward contract. As of September 30, 2017 and December 31, 2016, the foreign exchange forward contracts were included in other current liabilities and other current assets, respectively, on the accompanying condensed consolidated balance sheets.

The fair value of the Company's fixed rate senior notes and junior subordinated debentures as of September 30, 2017 and December 31, 2016 were determined by utilizing current trading prices obtained from indicative market data. As a result, the fair value measurements of the Company's senior term notes and debentures are considered to be Level 2.

	September 30, 2017		December 31, 2016	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
6.375% Senior Notes	\$ 324,721	\$ 327,938	\$ 323,888	\$ 304,013
Junior Subordinated Debentures	127,776	147,718	128,640	139,831

Cash, accounts receivable, accounts payable, and accrued liabilities are reflected in the condensed consolidated financial statements at book value, which approximates fair value, due to the short-term nature of these instruments. The carrying amount of the long-term debt under the revolving credit facility approximates the fair value at September 30, 2017 and December 31, 2016 as the interest rate is variable and approximates current market rates. The Company also believes the carrying amount of the long-term debt under the senior term loan approximates the fair value at September 30, 2017 and December 31, 2016 because, while subject to a minimum LIBOR floor rate, the interest rate approximates current market rates of debt with similar terms and comparable credit risk.

11. Segment Reporting:

The Company's segment reporting structure uses the Company's management reporting structure as the foundation for how the Company manages its business. The Company periodically evaluates its segment reporting structure in accordance with ASC 350-20-55 and has concluded that it has three reportable segments as of September 30, 2017: The United States, Canada, and All Other. The United States segment and the Canada segment are considered material by the Company's management as of September 30, 2017. The Company's other segments have been combined in the "All Other" category. In 2017, the Company completed the integration of its All Points subsidiary with the U.S. segment. After this transition, discrete financial information

THE HILLMAN COMPANIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(dollars in thousands)

for the All Points business is no longer regularly reviewed by the Chief Operating Decision Maker. Accordingly, to align the operating segments with the current way management reviews information to make operating decisions, assess performance, and allocate resources, the results of the Company's All Points business are now reported in the United States operating segment. The Company evaluates the performance of its segments based on revenue and income (loss) from operations, and does not include segment assets or nonoperating income/expense items for management reporting purposes.

The table below presents revenues and income (loss) from operations for our reportable segments for the thirteen and thirty-nine weeks ended September 30, 2017 and three and nine months ended September 30, 2016.

	Thirteen Weeks Ended September 30, 2017	Three Months Ended September 30, 2016	Thirty-nine Weeks Ended September 30, 2017	Nine Months Ended September 30, 2016
Revenues				
United States	\$ 179,705	\$ 176,211	\$ 520,557	\$ 520,886
Canada	37,430	33,313	106,292	101,612
All Other	1,820	2,004	5,145	5,534
Total revenues	<u>\$ 218,955</u>	<u>\$ 211,528</u>	<u>\$ 631,994</u>	<u>\$ 628,032</u>
Segment income (loss) from operations				
United States	\$ 12,352	\$ 15,535	\$ 31,739	\$ 36,894
Canada	1,480	1,035	3,140	2,798
All Other	152	(800)	707	(946)
Total income from operations	<u>\$ 13,984</u>	<u>\$ 15,770</u>	<u>\$ 35,586</u>	<u>\$ 38,746</u>

12. Subsequent Events

On November 8, 2017, the Company entered into an Asset Purchase Agreement with Hargis Industries, LP doing business as ST Fastening Systems and other related parties pursuant to which Hillman acquired substantially all of the assets, and assumed certain liabilities, of ST Fastening Systems. ST Fastening Systems, which is located in Tyler, Texas, specializes in manufacturing and distributing threaded self-drilling fasteners, foam closure strips, and other accessories to the steel-frame, post-frame, and residential building markets. Pursuant to the terms of the Agreement, Hillman paid a cash purchase price of \$48 million. The ST Fastening Systems business will be included in the Company's United States reportable segment.

Item 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion provides information which the Company's management believes is relevant to an assessment and understanding of the Company's operations and financial condition. This discussion should be read in conjunction with the condensed consolidated financial statements and accompanying notes in addition to the consolidated statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Forward-Looking Statements

Certain disclosures related to acquisitions, refinancing, capital expenditures, resolution of pending litigation, and realization of deferred tax assets contained in this quarterly report involve substantial risks and uncertainties and may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "could," "would," "expect," "plan," "anticipate," "believe," "estimate," "continue," "project," or the negative of such terms or other similar expressions.

These forward-looking statements are not historical facts, but rather are based on management's current expectations, assumptions, and projections about future events. Although management believes that the expectations, assumptions, and projections on which these forward-looking statements are based are reasonable, they nonetheless could prove to be inaccurate, and as a result, the forward-looking statements based on those expectations, assumptions, and projections also could be inaccurate. Forward-looking statements are not guarantees of future performance. Instead, forward-looking statements are subject to known and unknown risks, uncertainties, and assumptions that may cause the Company's strategy, planning, actual results, levels of activity, performance, or achievements to be materially different from any strategy, planning, future results, levels of activity, performance, or achievements expressed or implied by such forward-looking statements. Actual results could differ materially from those currently anticipated as a result of a number of factors, including the risks and uncertainties discussed under the caption "Risk Factors" set forth in Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2016. Given these uncertainties, current or prospective investors are cautioned not to place undue reliance on any such forward-looking statements.

All forward-looking statements attributable to the Company or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements included in this report and the risks and uncertainties discussed under the caption "Risk Factors" set forth in Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2016; they should not be regarded as a representation by the Company or any other individual. We undertake no obligation to update publicly or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. In light of these risks, uncertainties, and assumptions, the forward-looking events discussed in this report might not occur or be materially different from those discussed.

General

The Hillman Companies, Inc. and its wholly-owned subsidiaries (collectively, "Hillman" or "Company") are one of the largest providers of hardware-related products and related merchandising services to retail markets in North America. Our principal business is operated through the wholly-owned subsidiary, The Hillman Group, Inc. and its wholly-owned subsidiaries (collectively, "Hillman Group"). Hillman Group sells its products to hardware stores, home centers, mass merchants, pet supply stores, and other retail outlets principally in the United States, Canada, Mexico, Latin America, and the Caribbean. Product lines include thousands of small parts such as fasteners and related hardware items; threaded rod and metal shapes; keys, key duplication systems, and accessories; builder's hardware; and identification items, such as tags and letters, numbers, and signs. We support our product sales with services that include design and installation of merchandising systems and maintenance of appropriate in-store inventory levels.

For fiscal year 2017, we have changed from a calendar year ending on December 31 to a 52-53 week fiscal year ending on the last Saturday in December, effective beginning with the first quarter of 2017. In a 52 week fiscal year, each of our quarterly periods will comprise 13 weeks. The additional week in a 53 week fiscal year is added to the fourth quarter, making such quarter consist of 14 weeks. Our first 53 week fiscal year will occur in fiscal year 2022. We have made the fiscal year change on a prospective basis and have not adjusted operating results for prior periods. The change does not materially impact the comparability of quarters or year ended 2017 to the quarters or year ended 2016. The adoption of a 52-53 week year was not deemed a change in fiscal year for purposes of reporting subject to Rule 13a-10 or 15d-10; hence, no transition reports are required.

In 2017, we completed the integration of our All Points subsidiary with the U.S. segment. After this transition, discrete financial information for the All Points business is no longer regularly reviewed by the Chief Operating Decision Maker. Accordingly, to align the operating segments with the current way we review information to make operating decisions, assess performance, and allocate resources, the results of our All Points business are now reported in the United States operating segment. Additional information on our reportable segments is presented at the "Segment Information" note of the Notes to Condensed Consolidated Financial Statements. Certain reclassifications of prior year amounts, primarily related to the reclassification of segment information and goodwill reporting units, have been made to conform to the current year presentation.

Current Economic Conditions

Our business is impacted by general economic conditions in the North American and international markets, particularly the U.S. and Canadian retail markets including hardware stores, home centers, mass merchants, and other retailers.

We are exposed to the risk of unfavorable changes in foreign currency exchange rates for the U.S. dollar versus local currency of our suppliers located primarily in China and Taiwan. We purchase a significant variety of our products for resale from

multiple vendors located in China and Taiwan. The purchase price of these products is routinely negotiated in U.S. dollar amounts rather than the local currency of the vendors and our suppliers' profit margins decrease when the U.S. dollar declines in value relative to the local currency. This puts pressure on our suppliers to increase prices to us. The U.S. dollar increased in value relative to the RMB by approximately 4.4% in 2015, increased by 7.2% in 2016, and decreased by 4.2% during the thirty-nine weeks ended September 30, 2017. The U.S. dollar increased in value relative to the Taiwan dollar by approximately 3.8% in 2015, declined by 1.2% in 2016, and declined by 6.4% during the thirty-nine weeks ended September 30, 2017.

In addition, the negotiated purchase price of our products may be dependent upon market fluctuations in the cost of raw materials such as steel, zinc, and nickel used by our vendors in their manufacturing processes. The final purchase cost of our products may also be dependent upon inflation or deflation in the local economies of vendors in China and Taiwan that could impact the cost of labor used in the manufacturing of our products. We identify the directional impact of changes in our product cost, but the quantification of each of these variable impacts cannot be measured as to the individual impact on our product cost with a sufficient level of precision.

We are also exposed to risk of unfavorable changes in the Canadian dollar exchange rate versus the U.S. dollar. Our sales in Canada are denominated in Canadian dollars while a majority of the products are sourced in U.S. dollars. A weakening of the Canadian dollar versus the U.S. dollar results in lower sales in terms of U.S. dollars while the cost of sales remains unchanged. We have a practice of hedging some of our Canadian subsidiary's purchases denominated in U.S. dollars. The U.S. dollar increased in value relative to the Canadian dollar by approximately 19.3% in 2015, decreased by 3.0% in 2016, and decreased by 7.1% during the thirty-nine weeks ended September 30, 2017. In response, we implemented price increases in the Canada operating segment during 2015 and 2016. We may take future pricing action, when warranted, in an attempt to offset a portion of product cost increases. The ability of our operating divisions to institute price increases and seek price concessions, as appropriate, is dependent on competitive market conditions.

Results of Operations

The following analysis of results of operations includes a brief discussion of the factors that affected our operating results and a comparative analysis of the thirteen and thirty-nine weeks ended September 30, 2017 and the three and nine months ended September 30, 2016.

Thirteen Week Period Ended September 30, 2017 vs the Three Month Period Ended September 30, 2016

(dollars in thousands)	Thirteen Weeks Ended September 30, 2017		Three Months Ended September 30, 2016	
	Amount	% of Net Sales	Amount	% of Net Sales
Net sales	\$ 218,955	100.0 %	\$ 211,528	100.0 %
Cost of sales (exclusive of depreciation and amortization shown separately below)	119,468	54.6 %	111,158	52.6 %
Selling, general and administrative expenses	69,165	31.6 %	68,023	32.2 %
Depreciation	7,300	3.3 %	7,974	3.8 %
Amortization	9,500	4.3 %	9,481	4.5 %
Other (income) expense	(462)	(0.2)%	(878)	(0.4)%
Income from operations	13,984	6.4 %	15,770	7.5 %
Interest expense, net of investment income	15,844	7.2 %	15,728	7.4 %
Income before income taxes	(1,860)	(0.8)%	42	— %
Income tax expense	(538)	(0.2)%	479	0.2 %
Net income (loss)	\$ (1,322)	(0.6)%	\$ (437)	(0.2)%

Net Sales

Net sales for the third quarter of 2017 were \$219.0 million, an increase of approximately \$7.4 million compared to net sales of \$211.5 million for the third quarter of 2016. The increase from prior year was primarily due to growth of \$4.1 million in our

Canada segment driven by new product launches with big box retailers along with the favorable impact of conversion of the local currency to U.S. dollars. Net sales in our U.S. segment increased by \$3.5 million due to new product launches with big box retailers and strong commercial industrial sales driven by the hurricane season.

Cost of Sales

Our cost of sales was \$119.5 million, or 54.6% of net sales, in the third quarter of 2017, an increase of approximately \$8.3 million compared to \$111.2 million, or 52.6% of net sales, in the third quarter of 2016. The increase of 2.0% in cost of sales, expressed as a percent of net sales, in the third quarter of 2017 compared to the third quarter of 2016 was primarily due to \$4.1 million additional expense in the third quarter of 2017 for anti-dumping duties associated with nails imported from China from 2015 through 2016.

Expenses

Selling, general, and administrative ("SG&A") expenses were approximately \$69.2 million in the thirteen weeks ended September 30, 2017, an increase of approximately \$1.1 million, compared to \$68.0 million in the three months ended September 30, 2016. The following changes in underlying trends impacted the change in operating expenses:

- Selling expense was \$29.7 million in the third quarter of 2017, an increase of \$0.3 million compared to \$29.4 million in the third quarter of 2016. The increase in selling expense was primarily due to increased sales and marketing spend associated with a new product launch in the third quarter of 2017 offset by lower medical costs in the period.
- Warehouse and delivery expenses were \$28.1 million in the third quarter of 2017, an increase of \$1.4 million compared to \$26.7 million in the third quarter of 2016 due to higher variable expenses associated with increased volume.
- General and administrative ("G&A") expenses were \$11.4 million in the third quarter of 2017, a decrease of \$0.5 million compared to \$11.9 million in the third quarter of 2016. The decrease was driven by non-recurring legal charges incurred in the third quarter of 2016 related to our lawsuit against Minute Key Inc., see "Note 5 - Commitments and Contingencies" of the Notes to Condensed Consolidated Financial Statements for additional information.

Depreciation expense was \$7.3 million in the third quarter of 2017 as compared to depreciation expense of \$8.0 million in the third quarter of 2016. The decrease in depreciation expense was primarily due to certain assets becoming fully depreciated, partially offset by capital expenditures. Amortization expense of \$9.5 million in the third quarter of 2017 was consistent with the amortization expense in the third quarter of 2016.

Other income was \$0.5 million in the third quarter of 2017 compared to other income of \$0.9 million in the third quarter of 2016. In the third quarter of 2017, we recorded a gain of \$0.3 million on the mark to market adjustments on the interest rate swaps as compared to a gain of \$0.5 million in the third quarter of 2016. Additionally we recorded an exchange rate gain of \$0.3 million in the the third quarter of 2017 as compared to a gain of \$0.5 million in the third quarter of 2016.

Thirty-nine Week Period Ended September 30, 2017 vs the Nine Month Period Ended September 30, 2016

(dollars in thousands)	Thirty-nine Weeks Ended September 30, 2017		Nine Months Ended September 30, 2016	
	Amount	% of Net Sales	Amount	% of Net Sales
Net sales	\$ 631,994	100.0 %	\$ 628,032	100.0 %
Cost of sales (exclusive of depreciation and amortization shown separately below)	341,315	54.0 %	336,441	53.6 %
Selling, general and administrative expenses	203,091	32.1 %	200,171	31.9 %
Depreciation	25,473	4.0 %	24,394	3.9 %
Amortization	28,442	4.5 %	28,435	4.5 %
Other (income) expense	(1,913)	(0.3)%	(155)	— %
Income from operations	35,586	5.6 %	38,746	6.2 %
Interest expense, net of investment income	47,132	7.5 %	47,752	7.6 %
Loss before income taxes	(11,546)	(1.8)%	(9,006)	(1.4)%
Income tax benefit	(4,759)	(0.8)%	(2,471)	(0.4)%
Net (loss)	\$ (6,787)	(1.1)%	\$ (6,535)	(1.0)%

Net Sales

Net sales for the thirty-nine weeks ended September 30, 2017 were \$632.0 million, an increase of approximately \$4.0 million compared to net sales of \$628.0 million for the nine months ended September 30, 2016. The increase from prior year was primarily driven by growth in our Canada segment of \$4.7 million offset by the timing of customer and product rollouts in the nine months ended September 30, 2016 and inventory reductions by a large customer in the thirty-nine weeks ended September 30, 2017.

Cost of Sales

Our cost of sales was \$341.3 million, or 54.0% of net sales, in the thirty-nine weeks ended September 30, 2017, an increase of approximately \$4.9 million compared to \$336.4 million, or 53.6% of net sales, in the nine months ended September 30, 2016. The increase of 0.4% in cost of sales, expressed as a percent of net sales, in the thirty-nine weeks ended September 30, 2017 compared to the nine months ended September 30, 2016 was primarily due to \$6.3 million of additional expense in the thirty-nine weeks ended September 30, 2017 for anti-dumping duties associated with nails imported from China from 2014 through 2016 partially offset by lower freight costs and product mix.

Expenses

SG&A expenses were approximately \$203.1 million in the thirty-nine weeks ended September 30, 2017, an increase of approximately \$2.9 million, compared to \$200.2 million in the nine months ended September 30, 2016. The following changes in underlying trends impacted the change in operating expenses:

- Selling expense was \$87.8 million in the thirty-nine weeks ended September 30, 2017, a decrease of \$0.8 million compared to \$88.6 million in the nine months ended September 30, 2016. The decrease in selling expense was primarily due to lower medical claims in the thirty-nine weeks ended September 30, 2017 and higher costs associated with product and customer rollouts in the nine months ended September 30, 2016.
- Warehouse and delivery expenses were \$82.6 million in the thirty-nine weeks ended September 30, 2017, an increase of \$3.2 million compared to \$79.4 million in the nine months ended September 30, 2016. We incurred approximately \$1.8 million of warehouse expense in first quarter of 2017 associated with starting operations of a West Coast hub which we expect to provide leverage and distribution efficiency. These costs are comprised primarily of rent, freight, and payroll and related costs. The remaining increase was driven by higher payroll costs as we re-align our U.S. distribution network and the unfavorable conversion of local currency to the U.S. dollar.

- General and administrative (“G&A”) expenses were \$32.7 million in the thirty-nine weeks ended September 30, 2017, an increase of \$0.5 million compared to \$32.2 million in the nine months ended September 30, 2016. The increase was driven by severance costs related to restructuring activities in our Canada segment in the thirty-nine weeks ended September 30, 2017 offset by non-recurring legal charges incurred in 2016 related to our lawsuit against Minute Key Inc., see "Note 5 - Commitments and Contingencies" of the Notes to Condensed Consolidated Financial Statements for additional information.

Depreciation expense was \$25.5 million in the thirty-nine weeks ended September 30, 2017 as compared to depreciation expense of \$24.4 million in the nine months ended September 30, 2016. The increase in depreciation expense was primarily due to capital expenditures for key and engraving machines and software related to our ERP system. Amortization expense of \$28.4 million in the thirty-nine weeks ended September 30, 2017 was consistent with the amortization expense in the nine months ended September 30, 2016.

Other income was \$1.9 million in the thirty-nine weeks ended September 30, 2017 compared to other income of \$0.2 million in the nine months ended September 30, 2016. In the thirty-nine weeks ended September 30, 2017, we recorded a gain of \$1.0 million on the mark to market adjustments on the interest rate swaps. In the nine months ended September 30, 2016 we recorded losses of \$0.2 million on the mark to market adjustments on the interest rate swaps. Additionally, in the thirty-nine weeks ended September 30, 2017, we recorded an exchange rate gain of \$1.3 million. In the nine months ended September 30, 2016, we recorded an exchange rate gain of \$0.6 million.

Results of Operations – Operating Segments

The following table provides supplemental information regarding our net sales and profitability by operating segment for the thirteen and thirty-nine weeks ended September 30, 2017 and three and nine months ended September 30, 2016 (dollars in thousands):

	Thirteen Weeks Ended September 30, 2017	Three Months Ended September 30, 2016	Thirty-nine Weeks Ended September 30, 2017	Nine Months Ended September 30, 2016
Revenues				
United States	\$ 179,705	\$ 176,211	\$ 520,557	\$ 520,886
Canada	37,430	33,313	106,292	101,612
All Other	1,820	2,004	5,145	5,534
Total revenues	<u>\$ 218,955</u>	<u>\$ 211,528</u>	<u>\$ 631,994</u>	<u>\$ 628,032</u>
Segment income (loss) from operations				
United States	\$ 12,352	\$ 15,535	\$ 31,739	\$ 36,894
Canada	1,480	1,035	3,140	2,798
All Other	152	(800)	707	(946)
Total income from operations	<u>\$ 13,984</u>	<u>\$ 15,770</u>	<u>\$ 35,586</u>	<u>\$ 38,746</u>

The Thirteen Week Period Ended September 30, 2017 vs the Three Month Period Ended September 30, 2016

Net Sales

Net sales for the thirteen weeks ended September 30, 2017 increased \$7.4 million compared to the net sales for the three months ended September 30, 2016. For the United States operating segment, net sales increased by \$3.5 million due to new product launches with big box retailers and strong commercial industrial sales driven by the hurricane season. Net sales for our Canada operating segment increased by \$4.1 million new product launches and higher volume in the commercial industrial market along with the favorable impact of conversion of the local currency to U.S. dollars.

Income from Operations

Income from operations for the thirteen weeks ended September 30, 2017 decreased \$1.8 million compared to income from operations for the three months ended September 30, 2016.

Income from operations of our United States segment decreased by approximately \$3.2 million in the thirteen weeks ended September 30, 2017 to \$12.4 million as compared to \$15.5 million in the three months ended September 30, 2016. The decrease was primarily the result of \$4.1 million of additional expense in the third quarter of 2017 for anti-dumping duties associated with nails imported from China from 2015 through 2016 partially offset by higher sales and lower depreciation expense. Depreciation expense was \$0.9 million lower in the thirteen weeks ended September 30, 2017 due certain assets becoming fully depreciated. SG&A was \$1.4 million higher than the prior year due to higher warehousing costs associated with the optimization of our distribution network after the opening of our West Coast hub earlier this year.

Income from operations in our Canada segment increased by \$0.4 million in the thirteen weeks ended September 30, 2017 to \$1.5 million as compared to \$1.0 million in the three months ended September 30, 2016. The increase was due to higher sales offset by higher cost of goods sold and higher depreciation expense. Cost of goods sold as a percentage of sales was 65.8% in the third quarter of 2017 as compared to 64.0% in the third quarter of 2016 due to product mix.

In the three months ended September 30, 2016, we decided to exit the Australia market following the loss of a key customer and recorded charges of \$832 in the All Other segment related to the write-off of inventory and other assets in the three months ended September 30, 2016.

The Thirty-nine Week Period Ended September 30, 2017 vs the Nine Month Period Ended September 30, 2016

Net Sales

Net sales for the thirty-nine weeks ended September 30, 2017 increased \$4.0 million compared to the net sales for the nine months ended September 30, 2016. For the United States operating segment, net sales decreased by \$0.3 million due to large customer and product rollouts in 2016 and inventory reductions by a large customer in the thirty-nine weeks ended September 30, 2017. Additionally, market softness with the traditional customers was offset by growth with big box retail customers. Net sales for our Canada operating segment increased by \$4.7 million primarily as a result of growth with big box retailers in 2017, price increases implemented in 2016, and favorable conversion of local currency to the U.S. dollar.

Income from Operations

Income from operations for the thirty-nine weeks ended September 30, 2017 decreased \$3.2 million compared to income from operations for the nine months ended September 30, 2016.

Income from operations of our United States segment decreased by approximately \$5.2 million in the thirty-nine weeks ended September 30, 2017 to \$31.7 million as compared to \$36.9 million in the comparable prior year period. The decrease was the result of lower sales, higher cost of goods sold as a percentage of net sales, higher SG&A costs, and higher depreciation expense partially offset by gains on interest rate swaps. Our cost of good sold was 51.5% of net sales for the thirty-nine weeks ended September 30, 2017 compared to 50.9% of net sales for the nine months ended September 30, 2016 primarily due to \$6.3 million of additional expense in the thirty-nine weeks ended September 30, 2017 for anti-dumping duties associated with nails imported from China from 2014 through 2016 partially offset by lower freight costs and product mix. SG&A expenses were \$2.2 million higher in the thirty-nine weeks ended September 30, 2017 compared to the nine months ended September 30, 2016 primarily due to \$1.8 million of warehouse expense incurred in the first quarter of 2017 associated with starting operations of a West Coast hub which we expect to provide leverage and distribution efficiency. These costs are comprised primarily of rent, freight, and payroll and related costs. Additionally, we incurred outside storage charges in the thirty-nine weeks ended September 30, 2017 as we begin to exit certain off-site warehouses. Depreciation expense was \$0.9 million higher in the United States segment in the thirty-nine weeks ended September 30, 2017 due to capital expenditures for key and engraving machines and software related to our ERP system offset by certain assets becoming fully depreciated. In the thirty-nine weeks ended September 30, 2017, we recorded a gain of \$1.0 million on the mark to market adjustments on the interest rate swaps. In the nine months ended September 30, 2016 we recorded losses of \$0.2 million on the mark to market adjustments on the interest rate swaps.

Income from operations in our Canada segment increased by \$0.3 million in the thirty-nine weeks ended September 30, 2017 to \$3.1 million as compared to \$2.8 million in the nine months ended September 30, 2016. The increase was primarily due to

increased sales and improved product margin driven by price increases implemented in 2016 offset by higher SG&A costs related to restructuring charges in the thirty-nine weeks ended September 30, 2017.

In the nine months ended September 30, 2016, we decided to exit the Australia market following the loss of a key customer and recorded charges of \$832 in the All Other segment related to the write-off of inventory and other assets in the nine months ended September 30, 2016.

Income Taxes

In the thirteen weeks ended September 30, 2017, we recorded an income tax benefit of \$0.5 million on pre-tax loss of \$1.9 million. In the thirty-nine weeks ended September 30, 2017, we recorded an income tax benefit of \$4.8 million on pre-tax loss of \$11.5 million. The effective income tax rates were 28.9% and 41.2% for the thirteen and thirty-nine weeks ended September 30, 2017.

In the three months ended September 30, 2016, we recorded an income tax provision of \$479 thousand on a pre-tax income of \$42 thousand. In the nine months ended September 30, 2016, we recorded an income tax benefit of \$2.5 million on a pre-tax loss of \$9.0 million. The effective income tax rates were 1,140.5% and 27.4% for the three and nine months ended September 30, 2016.

The effective income tax rate differed from the federal statutory tax rate in the thirteen and thirty-nine weeks ended September 30, 2017 primarily due to the decrease in the valuation allowance attributable to a foreign subsidiary and certain non-deductible expenses. The effective income tax rate differed from the federal statutory tax rate in the thirteen and thirty-nine weeks ended September 30, 2017 due in part to a tax benefit recorded from the reconciliation of a prior year's tax return to the amount reported for tax provision purposes. The remaining differences between the effective income tax rate and the federal statutory rate in the thirteen and thirty-nine weeks ended September 30, 2017 were due to state and foreign income taxes.

The effective income tax rate differed from the federal statutory tax rate in the three months ended September 30, 2016 primarily due to certain non-deductible expenses for tax in relationship to the income reported for the third quarter financial statements. In addition, due to the cumulative loss recognized in previous years and in the current year in Australia, any tax benefit recorded is offset by the valuation allowance recorded against the subsidiary's loss. While the tax benefit is offset by the valuation allowance, the loss decreases total income utilized in calculating the effective rate during the three months ended September 30, 2016. The difference between the effective income tax rate and the federal statutory rate in the three and nine months ended September 30, 2016 was affected by a valuation reserve recorded to offset the deferred tax assets of a foreign subsidiary. The effective income tax rate in the three and nine months ended September 30, 2016 was also affected by the benefit recorded to reconcile the 2015 income tax return as filed to the tax provision recorded for financial statement purposes. The remaining differences between the effective income tax rate and the federal statutory rate in the three and nine months ended September 30, 2016 were primarily due to state and foreign income taxes.

Liquidity and Capital Resources

The statements of cash flows reflect the changes in cash and cash equivalents for the thirty-nine weeks ended September 30, 2017 and nine months ended September 30, 2016 by classifying transactions into three major categories: operating, investing, and financing activities.

Net cash provided by operating activities for the thirty-nine weeks ended September 30, 2017 was \$53.4 million as compared to \$55.6 million in the comparable prior year period. Operating cash flows for the thirty-nine weeks ended September 30, 2017 were unfavorably impacted by an increase in accounts receivable due to higher sales. This was partially offset by an increase in accounts payable associated with inventory purchases. Operating cash flows for the nine months ended September 30, 2016 were favorably impacted by a reduction in inventory related to our focus on improving net working capital.

Net cash used by investing activities was \$37.4 million and \$29.4 million for the thirty-nine weeks ended September 30, 2017 and nine months ended September 30, 2016, respectively. The primary use of cash in both periods was our investment in new, state of the art key cutting technology, the KeyKrafter™, as well as engraving machines and the implementation of our ERP system in Canada.

Net cash used by financing activities was \$4.2 million for the thirty-nine weeks ended September 30, 2017. We used cash to pay \$4.1 million in principal payments on the senior term loan under the Senior Facilities.

Net cash used by financing activities was \$32.3 million for the nine months ended September 30, 2016. The borrowings on revolving credit loans provided \$16.0 million. We used cash to pay \$4.1 million in principal payments on the senior term loan under the Senior Facilities, \$44.0 million in payments on the revolving credit loans, and \$0.2 million in principal payments under capitalized lease obligations.

Management believes that projected cash flows from operations and revolver availability will be sufficient to fund working capital and capital expenditure needs for the next 12 months. Our working capital (current assets minus current liabilities) position of \$219.4 million as of September 30, 2017 represents an increase of \$5.2 million from the December 31, 2016 level of \$214.2 million.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of Regulation S-K under the Securities Exchange Act of 1934, as amended (the “Exchange Act”).

Debt Covenants

Terms of the Senior Facilities subject the Company to a revolving facility test condition whereby a senior secured leverage ratio covenant of no greater than 6.5 times the last twelve months Credit Agreement Consolidated Adjusted EBITDA comes into effect if more than 35.0% of the total Revolver commitment is drawn or utilized in letters of credit at the end of a fiscal quarter. If this covenant comes into effect, it may restrict the Company’s ability to incur debt, make investments, pay interest on the Junior Subordinated Debentures, or undertake certain other business activities. As of September 30, 2017, the total revolving credit commitment of the Company was 9.1% utilized and the senior secured leverage ratio covenant was not in effect.

Critical Accounting Policies and Estimates

Significant accounting policies and estimates are summarized in the notes to the condensed consolidated financial statements. Some accounting policies require management to exercise significant judgment in selecting the appropriate assumptions for calculating financial estimates. Such judgments are subject to an inherent degree of uncertainty. These judgments are based on our historical experience, known trends in our industry, terms of existing contracts, and other information from outside sources, as appropriate. Management believes that these estimates and assumptions are reasonable based on the facts and circumstances as of September 30, 2017, however, actual results may differ from these estimates under different assumptions and circumstances.

There have been no material changes to our critical accounting policies and estimates which are discussed in the “Critical Accounting Policies and Estimates” section of “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Part II, Item 7 of the Annual Report on Form 10-K for the year ended December 31, 2016, as filed with the Securities and Exchange Commission. In addition, our most significant accounting policies are discussed in Note 2 and elsewhere in the Notes to the Consolidated Financial Statements included in the Annual Report on Form 10-K for the year ended December 31, 2016.

Recent Accounting Pronouncements

See “Note 3 - Recent Accounting Pronouncements” of the Notes to Condensed Consolidated Financial Statements.

Item 3.

Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Exposure

We are exposed to the impact of interest rate changes as borrowings under the Senior Facilities bear interest at variable interest rates. It is our policy to enter into interest rate swap and interest rate cap transactions only to the extent considered necessary to meet our objectives.

Based on our exposure to variable rate borrowings at September 30, 2017, after consideration of our LIBOR floor rate and interest rate swap agreements, a one percent (1%) change in the weighted average interest rate for a period of one year would change the annual interest expense by approximately \$4.0 million.

Foreign Currency Exchange

We are exposed to foreign exchange rate changes of the Canadian and Mexican currencies as they impact the \$142.1 million tangible and intangible net asset value of our Canadian and Mexican subsidiaries as of September 30, 2017. The foreign subsidiaries net tangible assets were \$69.3 million and the net intangible assets were \$72.8 million as of September 30, 2017.

We utilize foreign exchange forward contracts to manage the exposure to currency fluctuations in the Canadian dollar versus the U.S. Dollar. See "Note 9 - Derivatives and Hedging" of the Notes to Condensed Consolidated Financial Statements.

Item 4.

Controls and Procedures

Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective, as of September 30, 2017, in ensuring that material information required to be disclosed in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) that occurred during the thirteen weeks ended September 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II
OTHER INFORMATION**

Item 1. – Legal Proceedings.

We are subject to various claims and litigation that arise in the normal course of business. In the opinion of our management, the ultimate resolution of the pending litigation matters will not have a material adverse effect on our consolidated financial position, operations, or cash flows.

Item 1A – Risk Factors.

There have been no material changes to the risks from those disclosed in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2016.

Item 2. – Unregistered Sales of Equity Securities and Use of Proceeds.

Not Applicable

Item 3. – Defaults Upon Senior Securities.

Not Applicable

Item 4. – Mine Safety Disclosures.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER

I, Gregory J. Gluchowski, Jr., certify that:

1. I have reviewed this quarterly report on Form 10-Q of The Hillman Companies, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations, and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize, and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

THE HILLMAN COMPANIES, INC. AND SUBSIDIARIES
RECONCILIATION OF ADJUSTED EBITDA (Unaudited)
(dollars in thousands)

Adjusted EBITDA is not a presentation made in accordance with U.S. generally accepted accounting principles (“GAAP”). It should not be considered an alternative to GAAP-based net income or income from operations or operating cash flows. Further, because not all companies use identical calculations, amounts reflected by us as Adjusted EBITDA may not be comparable to similarly titled measures of other companies. We use this non-GAAP measure internally to make operating decisions and believe it allows more meaningful period-to-period comparisons of our ongoing operating results. The information can also be used to perform trend analysis and to better identify operating trends that may otherwise be masked or distorted by these types of items. The reconciliation of Net Loss to Adjusted EBITDA is presented below.

	Thirteen Weeks Ended September 30, 2017	Three Months Ended September 30, 2016	Thirty-nine Weeks Ended September 30, 2017	Nine Months Ended September 30, 2016
Net income (loss)	\$ (1,322)	\$ (437)	\$ (6,787)	\$ (6,535)
Income tax provision (benefit)	(538)	479	(4,759)	(2,471)
Interest expense, net	12,787	12,671	37,960	38,580
Interest expense on junior subordinated debentures	3,152	3,152	9,456	9,456
Investment income on trust common securities	(95)	(95)	(284)	(284)
Depreciation	7,300	7,974	25,473	24,394
Amortization	9,500	9,481	28,442	28,435
EBITDA	30,784	33,225	89,501	91,575
Stock compensation expense	472	573	2,025	1,691
Management fees	127	148	390	420
Acquisition and integration expense	53	—	53	—
Legal fees and settlements	—	1,886	65	2,752
Restructuring and other costs	1,628	1,499	5,898	2,107
Anti-dumping duties	4,128	—	6,274	—
Other adjustments	(318)	(509)	(984)	150
Adjusted EBITDA	\$ 36,874	\$ 36,822	\$ 103,222	\$ 98,695
